S.No	Functional MOU/Collaboration	Start and end date	Summary
1	Clinovi Research	16-05-2022 to 15-05-2025	The Functional Memorandum of Understanding (MOU) between Balaji Institute of Pharmaceutical Sciences and Clinovi Research establishes a collaborative framework for training and project engagement. This strategic partnership aims to enhance the educational experience and practical skills of students. Under this MOU, Clinovi Research will provide valuable industry insights, expertise, and resources to facilitate specialized training sessions and project opportunities for Balaji Institute students. These initiatives will cover various aspects of pharmaceutical research and development, clinical trials, and regulatory affairs. Students will gain hands-on experience through real-world projects, exposing them to industry practices and challenges. Balaji Institute of Pharmaceutical Sciences will reciprocate by ensuring active student participation, maintaining academic rigor, and aligning the curriculum with evolving industry demands. This partnership will foster a dynamic learning environment, bridging the gap between academia and industry. By equipping students with practical knowledge and skills, the collaboration aims to produce well-prepared graduates ready to contribute effectively to the pharmaceutical sector. In essence, the Functional MOU signifies a mutual commitment to cultivating a symbiotic relationship, enriching student learning, and advancing pharmaceutical research through practical engagement and collaboration between the academic institution and Clinovi Research.

		A Functional Memorandum of Understanding (MOU) has been established between Balaji Institute of Pharmaceutical Sciences and SG Health Care Pvt Ltd to facilitate training and project opportunities for students. This collaboration aims to provide students with practical insights into the pharmaceutical industry and enhance their skill sets. Under this MOU, students from Balaji Institute of Pharmaceutical Sciences will have the opportunity to engage in hands-on training and project work within the premises of SG Health Care Pvt Ltd. The training will encompass various aspects of the pharmaceutical sector, ranging from research and development to manufacturing and quality control. The MOU outlines the responsibilities of both parties, including the provision of necessary resources and guidance by SG Health Care Pvt Ltd, and the active participation and dedication of the students. This partnership aims to bridge the gap between academia and industry, fostering a conducive environment for experiential learning and knowledge exchange. By participating in real-world projects and gaining exposure to industry practices, students will be better equipped to apply theoretical knowledge in practical scenarios. This collaboration ultimately strives to nurture skilled pharmaceutical professionals and contribute to the growth and innovation of the pharmaceutical sector as a whole.

			structured framework for student engagement. This strategic alliance is poised to foster industry-academic collaboration, promoting skill development, knowledge exchange, and overall student growth. By leveraging the expertise and resources of Dr. NS Labs, students from Balaji Institute of Pharmaceutical Sciences are poised to gain a competitive edge in their field of study and be better prepared for the challenges of the pharmaceutical industry. The Functional Memorandum of Understanding (MOU) between Balaji Institute of Pharmaceutical Sciences and Telangana Academy for Skill and Knowledge (TASK) aims to facilitate comprehensive training and project opportunities for students. This collaboration aims to bridge the gap between academic learning and practical application by providing students with hands-on experience in the pharmaceutical sector. Under this MOU, students will have access to industry-relevant training programs, workshops, and skill development sessions organized by TASK. This partnership enables students to acquire practical skills, industry insights, and relevant knowledge, enhancing their employability and readiness for the pharmaceutical workforce. Furthermore, the MOU outlines provisions for collaborative projects, encouraging students to work on real-world challenges within the pharmaceutical industry. This engagement allows students to apply their theoretical knowledge in practical scenarios, fostering innovation and problem-solving abilities. The partnership emphasizes the importance of fostering industry-academia collaboration to nurture a skilled and competent workforce. Through this Functional MOU, Balaji Institute of Pharmaceutical Sciences and TASK are committed to preparing students for successful careers in the pharmaceutical sector by providing them with valuable experiential learning opportunities and exposure to industry practices.
4	 PRINCIPAL Balaji Institute of Pharmaceutical Sciences Laknepally (V), Narsampet (M) Warangal (Dt) - 506 331 (T.S)		Telangana Academy for skill and knowledge(TASK) Govt.TS 14-06-2021 to 13-06-2022
5	Avodha EduTech Pvt.Ltd		Balaji Institute of Pharmaceutical Sciences (BIPS) has entered into a momentous Memorandum of Understanding (MOU) with Avodha Edu Tech Pvt. Ltd. , marking a significant milestone in the realm of pharmaceutical education. This collaborative venture, spanning five years, aims to enhance the career prospects of B.Pharm and Pharm.D students.

		Under this MOU, Avodha Edu Tech will provide comprehensive training and placement services to BIPS students, equipping them with the skills and knowledge required to excel in the pharmaceutical industry. Avodha Edu Tech's expertise in the field will ensure that BIPS graduates are well-prepared for the competitive job market. This partnership underscores BIPS's commitment to fostering holistic education and ensuring successful career trajectories for its students, while Avodha Edu Tech's dedication to excellence in education and placement will undoubtedly benefit aspiring pharmacists. Together, they will shape a brighter future for pharmaceutical professionals. A Functional Memorandum of Understanding (MOU) has been established between Vinayaka Neuro Multi speciality Centre and Balaji Institute of Pharmaceutical Sciences. This collaboration aims to facilitate internship opportunities for Pharm D students and engage them in valuable project work. Vinayaka Neuro Multi speciality Centre, a renowned medical institution, has joined hands with Balaji Institute of Pharmaceutical Sciences to offer students a comprehensive learning experience. Pharm D students will have the unique opportunity to undergo internships within the Centre's diverse medical departments, gaining practical insights into patient care, pharmaceutical operations, and healthcare management. This hands-on exposure will complement their academic knowledge and prepare them for real-world challenges. Furthermore, the partnership extends to project work, allowing students to contribute to research initiatives at the Centre. Under the guidance of experienced professionals, Balaji Institute of Pharmaceutical Sciences students will collaborate on projects aimed at advancing medical and pharmaceutical practices. This interaction will foster innovation, knowledge exchange, and skill development. In summary, the Functional MOU between Vinayaka Neuro Multi Speciality Centre and Balaji Institute of Pharmaceutical Sciences establishes a platform for Pharm D students to undertake meaningful internships and project engagements. This collaboration is set to enhance their education, professional growth, and future contributions to the healthcare and pharmaceutical sectors. A Functional Memorandum of Understanding (MOU) has been established between Srinivasa Hospitals and Balaji Institute of Pharmaceutical Sciences. The MOU

		outlines a collaborative initiative to offer valuable learning opportunities for Pharm D students and facilitate project engagement for Balaji Institute's pharmaceutical science students. Under this partnership, Srinivasa Hospitals will provide internship placements for Pharm D students, enabling them to gain practical experience in a clinical healthcare setting. This hands-on exposure will enhance their understanding of real-world medical practices and patient care. Simultaneously, Srinivasa Hospitals will support students from Balaji Institute of Pharmaceutical Sciences by facilitating project work opportunities. This arrangement enables the students to undertake research projects within the hospital environment, fostering innovation and problem-solving skills. The collaboration aims to bridge the gap between theoretical knowledge and practical application, preparing students for successful careers in pharmaceutical and healthcare sectors. Overall, the Functional MOU between Srinivasa Hospitals and Balaji Institute of Pharmaceutical Sciences establishes a symbiotic relationship where students receive practical exposure and the hospital benefits from fresh perspectives and potential contributions from emerging pharmaceutical talents. This partnership exemplifies a proactive approach to nurturing the next generation of healthcare and pharmaceutical professionals.
 PRINCIPAL Balaji Institute of Pharmaceutical Sciences Lakshnapally (V), Narsampet (M) Warangal (Dist) - 506 331 (T.S)		The Functional Memorandum of Understanding (MOU) between Balaji Institute of Technology & Science and Balaji Institute of Pharmaceutical Sciences establishes a collaborative framework for research initiatives. This partnership aims to foster enhanced academic and professional growth for students and staff. By pooling resources and expertise, both institutions will engage in joint research projects, enabling interdisciplinary exploration and knowledge exchange. Under this MOU, students and faculty from Balaji Institute of Pharmaceutical Sciences will collaborate with their counterparts at Balaji Institute of Technology & Science on various research endeavors. The partnership seeks to leverage the strengths of each institution to drive innovation and advance scientific understanding in pharmaceutical and related fields. Through shared facilities, mentorship, and cross-functional workshops, participants will gain valuable insights, develop critical research skills, and contribute to meaningful discoveries. Overall, this Functional MOU promotes a synergistic approach to research, propelling both institutions towards the forefront of academic excellence and promoting a culture of collaborative exploration, discovery, and advancement in the realms of pharmaceutical sciences and technology.
8	Balaji Institute of Technology & Science	25-07-2020 to 24-07-2023

The Functional Memorandum of Understanding (MOU) between Balaji Institute of Management Sciences and Balaji Institute of Pharmaceutical Sciences establishes a collaborative research partnership. This agreement aims to facilitate knowledge exchange and joint research endeavors for both students and staff members. The two Institutes intend to leverage their respective expertise in management and pharmaceutical sciences to foster interdisciplinary innovation. Under this MOU, students and faculty from both institutions will collaborate on research projects, sharing insights and resources to drive advancements in pharmaceutical management, drug development, and related fields. This partnership seeks to create a dynamic platform for the exchange of ideas, promoting cross-disciplinary learning and problem-solving. Through joint workshops, seminars, and research symposiums, the MOU encourages active participation and engagement among students and faculty members. The Institutes envision a mutually beneficial relationship that enhances academic and research capabilities while contributing to the growth of the pharmaceutical and management sectors. In summary, the Functional MOU between Balaji Institute of Management Sciences and Balaji Institute of Pharmaceutical Sciences paves the way for collaborative research initiatives, fostering innovation and knowledge sharing among students and staff members from both institutions in the fields of pharmaceutical sciences and management.	Balaji Institute of Management Sciences 10-06-2020 to 13-06-2023
A Functional Memorandum of Understanding (MOU) has been established between Balaji Institute of Education and Balaji Institute of Pharmaceutical Sciences to foster collaborative research endeavors. This strategic partnership aims to facilitate knowledge exchange and innovative exploration within the academic realm. The MOU offers students and faculty members from Balaji Institute of Pharmaceutical Sciences the opportunity to engage in joint research initiatives with experts from Balaji Institute of Education. Through this collaboration, both institutions will synergistically contribute their respective expertise, resources, and insights to advance the field of pharmaceutical sciences. The partnership encourages the exchange of ideas, data, and methodologies, thus enriching the research environment for all involved. Students will benefit from exposure to diverse perspectives and specialized knowledge,	 PRINCIPAL Balaji Institute of Pharmaceutical Sciences Laknepally (V), Narsampet (M) Warangal (Dt) - 506 331 (T.S)  Balaji Institute of Education 13-08-2020 to 14-09-2023

		enhancing their academic and professional growth. Faculty members will have the chance to collaborate on interdisciplinary projects, leading to the development of cutting-edge research outcomes. This collaboration also paves the way for joint workshops, seminars, and conferences that foster a culture of continuous learning and innovation. In essence, the Functional MOU underscores the commitment of both institutions to elevating the standards of research and education in pharmaceutical sciences. By leveraging each other's strengths, Balaji Institute of Education and Balaji Institute of Pharmaceutical Sciences aim to create a robust platform for collaborative research that has the potential to drive meaningful advancements in the field. The Functional Memorandum of Understanding (MOU) established between Balaji Institute of Nursing and Balaji Institute of Pharmaceutical Sciences facilitates collaborative research endeavors for both students and staff. This partnership aims to synergize the strengths of both institutions, fostering an environment conducive to innovative research and knowledge exchange. Under this MOU, students and faculty members from the Pharmaceutical Sciences Institute will collaborate with their counterparts in the Nursing Institute to undertake joint research projects. This collaboration will not only broaden the scope of research but also enhance interdisciplinary learning, contributing to a holistic educational experience. The MOU outlines mechanisms for resource-sharing, including access to laboratories, libraries, and research infrastructure. Regular workshops, seminars, and conferences will be organized to encourage active participation and the exchange of ideas. This collaboration seeks to nurture a culture of academic and research excellence, positioning both institutions at the forefront of healthcare-related research. Through this Functional MOU, Balaji Institute of Nursing and Balaji Institute of Pharmaceutical Sciences are committed to fostering a dynamic research ecosystem that empowers students and staff to make significant contributions to the advancement of healthcare knowledge and practices, ultimately benefiting society as a whole.
11	 PRINCIPAL Balaji Institute of Pharmaceutical Sciences Laknepally (V), Narsampet (M) Warangal (Dt) - 506 331 (T.S)	 11-07-2017 to 12-07-2020

		A Functional Memorandum of Understanding (MOU) was established between Balaji Institute of Pharmaceutical Sciences and A-one Engineering Works to collaboratively offer Intellectual Property Rights (IPR) assistance to students and faculty members. This partnership aims to enhance the understanding and practical application of IPR concepts within the pharmaceutical domain. The MOU outlines a structured framework for cooperation, focusing on knowledge sharing, training, and advisory services related to IPR. A-one Engineering Works, known for its expertise in IPR matters, will provide workshops, seminars, and guidance sessions aimed at educating participants about patents, copyrights, trademarks, and trade secrets. This initiative strives to empower students and faculty with valuable insights into protecting and managing intellectual property. Both institutions are dedicated to fostering innovation and ensuring that the creative endeavors of students and faculty are appropriately safeguarded. By combining the academic prowess of Balaji Institute of Pharmaceutical Sciences with A-one Engineering Works' specialized IPR knowledge, this collaboration is set to equip participants with the necessary tools to navigate the intricacies of intellectual property and promote a culture of innovation and legal awareness within the pharmaceutical field.
12	A-one Engineering works	05-08-2019 to 04-08-2022 The Functional Memorandum of Understanding (MOU) established between Lab India and the Balaji Institute of Pharmaceutical Sciences signifies a comprehensive collaboration aimed at fostering joint research endeavors. This partnership facilitates a dynamic platform for both students and faculty members to engage in collaborative scientific exploration. Lab India, a prominent entity in the research equipment industry, brings its cutting-edge technological resources and expertise to synergize with the academic prowess of the Balaji Institute of Pharmaceutical Sciences. Through this MOU, students gain invaluable exposure to real-world research scenarios, working alongside Lab India's experts and utilizing state-of-the-art equipment. Faculty members benefit from enriched research opportunities, as they exchange knowledge and share best practices with Lab India's professionals. This alliance fosters an environment of innovation and knowledge exchange, enhancing the quality of research outcomes and contributing to the advancement of pharmaceutical sciences.
13	Lab India	25-07-2019 to 24-07-2022  PRINCIPAL Balaji Institute of Pharmaceutical Sciences Laknepally (V), Narsampet (M) Warangal (Dt) - 506 331 (T.S) 

		In essence, the Functional MOU between Lab India and the Balaji Institute of Pharmaceutical Sciences stands as a testament to their commitment to collaborative learning and exploration. By combining academic rigor with industrial expertise, this partnership cultivates a fertile ground for impactful research and the holistic development of students and faculty alike.
		The Functional Memorandum of Understanding (MOU) established between Sai Sree Hospitals and Balaji Institute of Pharmaceutical Sciences outlines a collaborative initiative aimed at enhancing educational opportunities for Pharm D students. The MOU encompasses two main components: internship and project work. Under this agreement, Sai Sree Hospitals will provide internship opportunities to Pharm D students from Balaji Institute of Pharmaceutical Sciences. This practical exposure will enable students to gain real-world insights into pharmaceutical practices within a hospital setting. The hospital will offer a structured learning environment, allowing students to apply theoretical knowledge to practical scenarios, thereby fostering skill development and a deeper understanding of healthcare operations. Additionally, the MOU facilitates project work for the students. Balaji Institute of Pharmaceutical Sciences students will engage in research and project-based activities aligned with the hospital's pharmaceutical and healthcare requirements. These projects will enable students to explore critical issues, propose innovative solutions, and contribute to advancements in the pharmaceutical domain. Through this collaborative effort, both institutions seek to bridge the gap between academic learning and industry demands. The partnership aims to produce well-rounded and skilled graduates who are equipped to excel in the pharmaceutical sector. Overall, the Functional MOU between Sai Sree Hospitals and Balaji Institute of Pharmaceutical Sciences underscores their commitment to enhancing educational quality and industry relevance for Pharm D students. A Functional Memorandum of Understanding (MOU) has been established between SVR Multi Speciality Hospitals and Balaji Institute of Pharmaceutical Sciences. This collaboration aims to provide valuable opportunities for Pharm D students. The MOU facilitates internships for Pharm D students at SVR Multi Speciality Hospitals, enabling them to gain practical experience in a real healthcare setting. Additionally, the partnership offers project work opportunities, allowing students to engage in

			meaningful research and contribute to the hospital's advancements. This collaboration not only bridges the gap between academic learning and practical application but also nurtures future pharmaceutical professionals by exposing them to a dynamic healthcare environment. Through this functional MOU, SVR Multi Speciality Hospitals and Balaji Institute of Pharmaceutical Sciences synergize their resources to enhance educational quality, foster experiential learning, and promote holistic development within the field of pharmaceutical sciences. A Functional Memorandum of Understanding (MOU) has been established between Sai Ram Children Clinic and Balaji Institute of Pharmaceutical Sciences, aimed at facilitating a collaborative internship program for Pharm D students and engaging them in meaningful project work. This partnership enables students to gain practical exposure within a clinical setting and apply their theoretical knowledge in real-world scenarios. Under this MOU, Pharm D students from Balaji Institute of Pharmaceutical Sciences will undergo supervised internships at Sai Ram Children Clinic, receiving hands-on experience in Neonatal and pediatric care, medication management, and healthcare operations. Additionally, students will have the opportunity to undertake project assignments that contribute to the clinic's research and operational advancements. This symbiotic collaboration not only enhances the educational journey of the students but also supports Sai Ram Children Clinic in accessing fresh perspectives and innovative ideas from budding pharmaceutical talents. Through this initiative, both institutions foster mutual growth, knowledge exchange, and the development of skilled healthcare professionals equipped to address the evolving challenges of the pharmaceutical and clinical domains.

Through this partnership, both institutions seek to bridge the gap between academic learning and practical application, fostering the development of well-rounded and skilled Pharm D graduates. The collaboration holds the promise of enriching the educational journey of students and making meaningful contributions to the field of psychiatric care. A Functional Memorandum of Understanding (MOU) has been established between Laxmi Narasimha Hospitals and Balaji Institute of Pharmaceutical Sciences to facilitate a collaborative platform for Pharm D students. This partnership aims to offer valuable internship opportunities and engaging project work for the students. Under this MOU, Laxmi Narasimha Hospitals will provide hands-on internship experiences for Pharm D students, enabling them to gain practical insights into the pharmaceutical and healthcare sectors. This exposure will foster their professional development and enhance their understanding of real-world medical practices. Additionally, the partnership will involve students from Balaji Institute of Pharmaceutical Sciences in meaningful project work. This collaborative endeavor will allow students to address pertinent pharmaceutical challenges and contribute to the advancement of healthcare solutions. The projects will be guided by experts from both institutions, ensuring a conducive learning environment. Overall, the Functional MOU seeks to bridge the gap between academic knowledge and practical application by facilitating internships and project engagements. It is anticipated that this collaboration will nurture skilled pharmaceutical professionals while promoting innovative contributions to the healthcare field.

		Faculty members benefit from industry perspectives, refining their teaching approaches and curriculum design. The MOU outlines the sharing of resources, facilities, and expertise, enhancing the overall research capabilities of the institution. Regular workshops, seminars, and symposiums are proposed to facilitate meaningful interactions between academia and industry professionals, nurturing innovation and problem-solving skills. In essence, the Functional MOU sets the stage for a mutually beneficial partnership, nurturing a fertile ground for collaborative research, skill enhancement, and knowledge dissemination, ultimately contributing to advancements in the field of pharmaceutical sciences. A Functional Memorandum of Understanding (MOU) has been established between Sri Sri Neuro Centre and Balaji Institute of Pharmaceutical Sciences. This collaboration aims to facilitate valuable learning experiences for Pharm D students through internships and project work. The MOU outlines a structured framework where students from Balaji Institute of Pharmaceutical Sciences will have the opportunity to engage in hands-on training at Sri Sri Neuro Centre. Under this partnership, Pharm D students will undergo internships at the Neuro Centre, gaining practical insights into various aspects of neurology and healthcare delivery. Additionally, students will be involved in project assignments that contribute to the advancement of healthcare solutions. This unique blend of theoretical knowledge and practical exposure will equip students with essential skills for their professional journey. The MOU establishes a mechanism for regular communication, coordination, and evaluation between the two institutions, ensuring a seamless and enriching experience for the students. By bridging the gap between academia and real-world medical practice, this collaboration strives to nurture competent healthcare professionals and foster innovation in the field of pharmaceutical sciences. Overall, the Functional MOU between Sri Sri Neuro Centre and Balaji Institute of Pharmaceutical Sciences serves as a promising avenue for student development and industry-academic synergy.

		MOU envisions a dynamic partnership that will provide students with hands-on experience in a real-world pharmaceutical setting, fostering their practical knowledge and skill development. Through this alliance, Spincotech Pvt. Ltd. will facilitate internship placements, enabling students to gain exposure to various aspects of the pharmaceutical industry. Additionally, students will have the chance to participate in project initiatives, contributing to research and innovation endeavors. This collaboration signifies a commitment to bridging the gap between academia and industry, promoting the holistic growth of students by nurturing both their academic and practical competencies. Balaji Institute of Pharmaceutical Sciences and Spincotech Pvt. Ltd. are poised to create a mutually beneficial relationship that empowers students to become well-rounded professionals in the pharmaceutical sector. A Functional Memorandum of Understanding (MOU) has been established between Vandana Nursing Home and Balaji Institute of Pharmaceutical Sciences to facilitate a productive internship program for Pharm D students. This collaborative initiative aims to provide students with valuable real-world experience in the healthcare sector. Under this MOU, Vandana Nursing Home, a reputable healthcare institution, will open its doors to Pharm D students for internship placements. The internship program is designed to expose students to diverse clinical scenarios, patient care methodologies, and pharmaceutical practices within a hospital environment. Students will actively engage with healthcare professionals, contributing to their learning while also assisting in various pharmaceutical and patient-centric tasks. Balaji Institute of Pharmaceutical Sciences, a distinguished educational institution, will ensure the academic relevance and quality of the internship. Faculty members will liaise with Vandana Nursing Home to ensure that the internship aligns with the students' curriculum and learning objectives. Regular evaluations and feedback mechanisms will be in place to monitor the progress of interns and ensure a fruitful experience. Through this collaboration, students will gain practical insights, develop crucial skills, and establish professional networks within the healthcare industry. This MOU signifies a strong partnership between academia and the healthcare sector, fostering the growth and development of Pharm D students while enhancing the quality of patient care and pharmaceutical practices at Vandana Nursing Home

A Functional Memorandum of Understanding (MOU) has been established between **Balaji Institute of Education** and **Balaji Institute of Pharmaceutical Sciences** to foster collaborative research endeavors. This strategic partnership aims to facilitate knowledge exchange and innovative exploration within the academic realm. The MOU offers students and faculty members from Balaji Institute of Pharmaceutical Sciences the opportunity to engage in joint research initiatives with experts from Balaji Institute of Education.

Through this collaboration, both institutions will synergistically contribute their respective expertise, resources, and insights to advance the field of pharmaceutical sciences. The partnership encourages the exchange of ideas, data, and methodologies, thus enriching the research environment for all involved. Students will benefit from exposure to diverse perspectives and specialized knowledge, enhancing their academic and professional growth.

Faculty members will have the chance to collaborate on interdisciplinary projects, leading to the development of cutting-edge research outcomes. This collaboration also paves the way for joint workshops, seminars, and conferences that foster a culture of continuous learning and innovation.

In essence, the Functional MOU underscores the commitment of both institutions to elevating the standards of research and education in pharmaceutical sciences. By leveraging each other's strengths, Balaji Institute of Education and Balaji Institute of Pharmaceutical Sciences aim to create a robust platform for collaborative research that has the potential to drive meaningful advancements in the field.

		The Functional Memorandum of Understanding (MOU) established between Balaji Institute of Nursing and Balaji Institute of Pharmaceutical Sciences facilitates collaborative research endeavors for both students and staff. This partnership aims to synergize the strengths of both institutions, fostering an environment conducive to innovative research and knowledge exchange. Under this MOU, students and faculty members from the Pharmaceutical Sciences Institute will collaborate with their counterparts in the Nursing Institute to undertake joint research projects. This collaboration will not only broaden the scope of research but also enhance interdisciplinary learning, contributing to a holistic educational experience. The MOU outlines mechanisms for resource-sharing, including access to laboratories, libraries, and research infrastructure. Regular workshops, seminars, and conferences will be organized to encourage active participation and the exchange of ideas. This collaboration seeks to nurture a culture of academic and research excellence, positioning both institutions at the forefront of healthcare-related research. Through this Functional MOU, Balaji Institute of Nursing and Balaji Institute of Pharmaceutical Sciences are committed to fostering a dynamic research ecosystem that empowers students and staff to make significant contributions to the advancement of healthcare knowledge and practices, ultimately benefiting society as a whole. A Functional Memorandum of Understanding (MOU) has been established between Balaji Institute of Pharmaceutical Sciences and Eeva IP&IT Services Private Limited. This MOU aims to facilitate faculty exchange, training, and Intellectual Property Rights (IPR) assistance. The collaboration intends to enhance the academic and professional development of both institutions. Through faculty exchange and training initiatives, educators from both entities will have the opportunity to share expertise, teaching methodologies, and industry insights, enriching the educational experience. Additionally, Eeva IP&IT Services will provide IPR assistance, guiding the Institute in matters related to intellectual property, fostering innovation, and protecting their research outcomes. This partnership aspires to foster a productive exchange of knowledge, bolster the Institute's IPR strategies, and cultivate a dynamic environment for academic growth and innovation at Balaji Institute of Pharmaceutical Sciences, with association of Eeva IP&IT Services department of Pharmaceutical Analysis has bagged 17 IPRs.

					A Functional Memorandum of Understanding (MOU) has been established between Guardian Hospitals and Balaji Institute of Pharmaceutical Sciences to facilitate internships for Pharm D students and project collaborations for the Institute's students. This partnership aims to enhance practical learning experiences for aspiring pharmacists. Under this MOU, Guardian Hospitals will provide internship opportunities to Pharm D students, allowing them to gain hands-on experience in a clinical setting. This exposure will enable students to apply their theoretical knowledge to real-world scenarios, fostering their professional growth. Additionally, the collaboration will offer project work opportunities for Balaji Institute of Pharmaceutical Sciences students. They will engage in research and practical projects aligned with the hospital's requirements, promoting innovation and skill development. These projects could cover areas such as drug research, patient care, or healthcare management. This Functional MOU seeks to bridge the gap between academia and industry, offering students a comprehensive understanding of pharmaceutical practices while contributing to the hospital's initiatives. Through this partnership, both institutions aim to nurture future pharmaceutical professionals who are well-equipped to address real healthcare challenges effectively.
31	Guardian Hospitals	25-07-2018- 24-07-2028			A Functional Memorandum of Understanding (MOU) was established between Balaji Institute of Pharmaceutical Sciences and Starcom Information Technology Limited to collaboratively offer Intellectual Property Rights (IPR) assistance to students and faculty members. This partnership aims to enhance the understanding and practical application of IPR concepts within the pharmaceutical domain. The MOU outlines a structured framework for cooperation, focusing on knowledge sharing, training, and advisory services related to IPR. A-one Engineering Works, known for its expertise in IPR matters, will provide workshops, seminars, and guidance sessions aimed at educating participants about patents, copyrights, trademarks, and trade secrets. This initiative strives to empower students and faculty with valuable insights into protecting and managing intellectual property. Both institutions are dedicated to fostering innovation and ensuring that the creative endeavors of students and faculty are appropriately safeguarded. By combining the academic prowess of Balaji Institute of Pharmaceutical Sciences with A-one Engineering Works' specialized IPR knowledge, this collaboration is set to equip participants with the necessary tools to navigate the intricacies of intellectual
